

SAFETY, HEALTH AND ENVIRONMENTAL POLICY

proseat ensures that the safety of our employees and other persons working under our supervision, as well as the protection of the environmental, are of the utmost concern in the operation of our business. We strive for continuous improvement in the areas of Safety, Health and Environment (SHE).

It is our Policy to:

- Provide a work environment free from accidents and near misses and minimize all occupational diseases by systematically eliminating and reducing occupational risks.
- Comply with Safety, Health and Environment legal requirements, regulations, standards and other requirements that apply to our operations.
- Minimize the negative environmental impact of our operations through the rational use of media and raw materials and the reduction of waste and pollution.
- Routinely review and evaluate our processes to achieve continuous improvement in the areas of safety, health and the environment.
- Take all necessary precautions to prevent environmental failures.
- Build a culture of safety within the organisation by involving all employees and consulting with their representatives.

All our employees, customers, contractors and suppliers will be involved in implementing this policy. The organization will provide the necessary training and instructions.

proseat strives for open communication in the field of Safety, Health and Environment, covering all levels of the organization.

Every area of our organization is responsible for achieving Safety, Health and Environmental goals and for the implementation of measures to achieve these goals.

proseat provides the necessary support and resources as an expression of commitment to the implementation of this policy.

To carry out and document all safety, health and environmental activities, the organisation will implement and maintain a Management System in accordance with the requirements of the ISO 14001 standard.
